FOREWORD

This handbook for Nova Scotia has been prepared to serve as a ready reference on agricultural statistics. It has been a joint undertaking of Statistics Canada, Atlantic Office and The Nova Scotia Department of Agriculture and Marketing.

The greater part of the material contained herein has been compiled from Statistics Canada sources. Acknowledgement is made to Agriculture Canada for data which they supplied.

We gratefully acknowledge the contribution made by farmers, processors and others in Nova Scotia's agricultural industry. Without the information supplied by these operators to mailed and enumerative surveys, this book would not be possible. We hope the information contained herein will be useful to the producers, processors, farm organizations, Government Departments and others in their planning and policy deliberations.
